Skydecor Laminates
Redefining Global Laminates Solutions

A B O U T U S

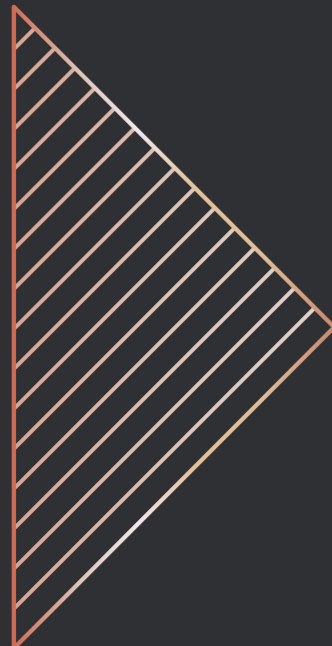

Established in 2015, Skydecor has rapidly emerged as a leader in the laminates industry, blending innovation, precision, and sustainability. With state-of-the-art manufacturing facilities and a capacity to produce over five million sheets annually, we proudly stand as India's first manufacturer of PVC laminates. Our product portfolio includes Decorative Laminates, Acrylic Laminates, and other premium offerings crafted with cutting-edge machinery to ensure unmatched quality and style.

Marking a significant milestone, Skydecor has launched its first dedicated warehouse in Dubai to serve the global market more efficiently. This facility symbolizes our steadfast commitment to expanding our reach while delivering exceptional products and services to customers in the Middle East and beyond.

Our diverse collection features an array of solids, textures, naturals, and timeless designs that transform spaces with unmatched elegance and versatility. With a focus on eco-conscious practices, we incorporate sustainable materials into our manufacturing processes, paving the way for a greener future.

Skydecor combines innovation and collaboration to deliver tailored solutions for global clients. Backed by an extensive dealer network and over a decade of expertise, we ensure seamless execution of projects, offering enduring quality and style. As we expand globally, Skydecor continues to inspire interiors that elevate spaces, delivering excellence at every step.

SKYSTICK™ ADHESIVE

SKYDECOR recommends SKYSTICK adhesive for pasting of Acrylic and FR Flexi Laminate sheets on substrate

Available in 1 Kg and 5 Kg Jar

Easy to Apply

Strong Bond

Quick Dry

Low Odour

Description :
With the new age and rapidly changing customer demands, we have curated an adhesive solution for the application of Acrylic & FR Flexi Laminates. With an idea to provide a superior solution we present SKYSTICK ADHESIVE. A ready to use, high coverage, quick to dry and solid bonding strength adhesive.

Usage Method for Sheets :

- Cover the edges with masking tape.
- Clean the surface of **Plywood, MDF, or Particle Board** to ensure it is free from dust and grease.
- Stir the glue well. Spread it uniformly on both the sheet and the substrate using a brush, roller, or spreader.
- Place the sheet and substrate together carefully. Full bond strength will be attained in **12 hours at room temperature.**
- Press the sheet with a **wet squeeze cloth** to ensure a proper bond and to remove air bubbles.
- Remove the masking tape from the edges.
- SKYDECOR strongly recommends to use Skystick Adhesive for best results.

IMPORTANT NOTES:

- Lack of sufficient pressure while pressing may cause air bubbles.
- No guarantee is provided against air bubbles.*

उपयोग विधि :

- किनारों को **मास्किंग टेप** से ढक दें।
- प्लाईवुड, एमडीएफ या पार्टिकल बोर्ड** की सतह को अच्छी तरह साफ करें ताकि उस पर धूल या चिकनाई न रहे।
- गोद को अच्छी तरह हिलाएँ। ब्रश, रोलर या स्प्रेडर की मदद से गोद को शीट और सबस्ट्रेट दोनों पर समान रूप से लगाएँ।
- शीट और सबस्ट्रेट को सावधानीपूर्वक एक साथ रखें। **कमरे के तापमान पर 12 घंटे में पूरा बॉन्ड स्थापित हो जाएगा।**
- गोले कपड़े से शीट को दबाएँ, ताकि सही तरीके से चिपक जाए और हवा के बुलबुले निकल जाएँ।
- किनारों से मास्किंग टेप हटा दें।
- सर्वोत्तम परिणामों के लिए स्काईडेकोर स्काईस्टिक गोद का उपयोग करने की पुख्तार सलाह देता है।

महत्वपूर्ण नोट्स:

- दबाव कम देने पर शीट में हवा के बुलबुले आ सकते हैं।
- हवा के बुलबुले आने पर कोई गारंटी नहीं दी जाएगी।*

TECHNICAL SPECIFICATION

| | | | |
|---|----------------------------------|---|----------------|
| Thickness : 3mm | Standard Sizes : 1220mm X 2440mm | Sheet Options : Length : Any (on order) | Width : 1220mm |
| Range : These Laminates come in a wide range of design, colours and finishes. | | | |

CUSTOMIZED SIZES AND SHADES CAN BE DEVELOPED ON REQUEST.

Adhesive : These laminates are easy to apply with the standard laminating system, including most of the conventional water and solvent based adhesives normally used with plastic laminates. We DO NOT recommend the use of heat activated adhesives. SKYDECOR strongly recommends to use Skystick Adhesive for best results.

Lamination : Proper substrates must be used and careful bonding procedures must be observed. Substrates should be of good quality plywood, PVC board, high density particle board, or high quality fiber board. The face of the substrate must be smooth and free of grease, wax, dust, chips and other foreign matters. We DO NOT recommend any kind of coat like PU base, melamine, lamination (wax) on our products.

Cutting & Machining : These laminates can be cut by using sharp diamond blade cutter only. We recommend the use of smooth file to feather all corner edges.

Maintenance : Any cleaning agent containing acids, alkalis or abrasive should NOT be used to clean the laminate. Exposure to sunlight should be avoided.

Note : Skydecor warrants that all its products are free from manufacturing defects and perfectly fit for use in normal conditions. In case of any claim, the liability the company's is however limited to the cost of the product only. There may be batch to batch colour variation. The sample swatches only represent the designs, colours and finish. They do not represent the actual thickness. KINDLY REMOVE THE PROTECTIVE FILM WITHIN 7 DAYS OF INSTALLATION OF LAMINATES.
