About Us

In 2016, Skydecor embarked on its journey with a vision to surpass conventional limits. With a sprawling infrastructure spanning over 50,000 square meters and equipped with cutting-edge machinery, we are committed to continual expansion and advancement. Our manufacturing facilities, located in Greater Noida and Hapur, specialize in producing PVC Laminates, Acrylic Laminates, and Decorative Laminates. Additionally, our operational headquarters is situated in Noida, with an Experience Centre conveniently located in Kirti Nagar.

With a proud legacy spanning a decade, Skydecor Laminates excels in revitalizing interior spaces, our collections offer boundless possibilities, ensuring that every interior space exudes style and sophistication. From sleek solids to captivating textures, from natural inspirations to timeless designs, our diverse range of laminates caters to every aesthetic preference.

OUR CORE COMMITMENTS

Mission

We at Skydecor Laminates aim to be counted as the company that makes homes beautiful. We endeavor to bring global competence and unique styles to your space.

Vision

We aspire to attain global competitiveness and excellence in our industry by harmonizing Western work practices with Indian moral values. Our vision is to infuse global competence and distinctive flair into your environments.

Values

Skydecor is dedicated to incorporating eco-friendly materials and sustainable practices wherever possible, contributing to a greener and more sustainable future. The goal is to provide products that are not only visually appealing but also environmentally responsible & safe.

SUSTAINABILITY

At Skydecor, sustainability is not just a commitment—it's embedded in everything we do.

As the first in our category to be awarded the prestigious Green Product Certification, we take pride in leading the way toward a greener future. Our mission is to manufacture surface products that are not only aesthetically superior but also built to last. By focusing on durability, we help reduce the frequency of replacements, thereby conserving resources and minimizing waste—key aspects of the circular sustainability model. Moreover, our laminates are crafted primarily from sustainably sourced paper, a renewable raw material, reinforcing our dedication to responsible manufacturing

OUR JOURNEY & INFRASTRUCTURE

2016

Established India's first PVC laminates manufacturing plant at Greater Noida, UP. With an Annual Production capacity of 6 lakhs Sheets

2018

PVC laminates awarded as India's first Green Product and increase its annual production capacity to 15 Lakhs Sheets

LAMINATES

PVC • ACRYLIC • DECORATIVE

Skydecor proudly stands as India's first company to manufacture all three types of laminates—HPL, PVC, and Acrylic—under one roof. Our decorative laminates are crafted to deliver the perfect blend of style, flexibility, and durability, featuring cutting-edge, European-inspired designs.

Ideal for a wide range of interior applications—furniture, walls, ceilings, and panels—these surfaces bring vibrant colors, rich textures, and exceptional finishes to life. Whether your space demands a modern aesthetic or classic charm, Skydecor laminates offer versatile and seamless solutions that enhance both form and function.

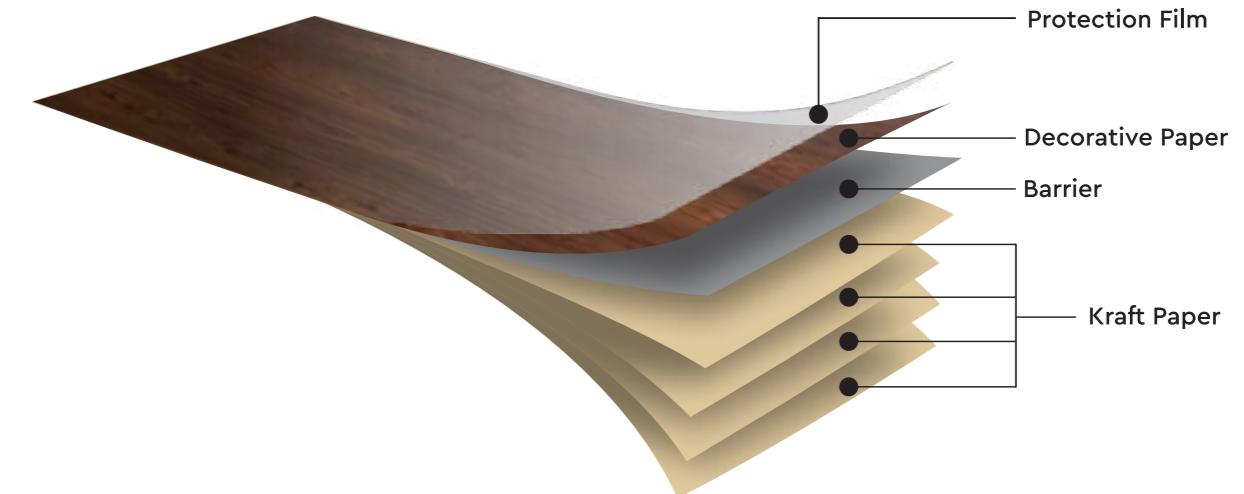

10

DESIGN MASTER

1mm+ Decorative Laminates

Skydecor's Decorative Laminate (HPL) collection sounds like a standout choice for elevating interior spaces with its luxurious appeal and robust functionality. The combination of elegant finishes and a slim profile makes these laminates an excellent option for surfaces that demand a high-end aesthetic. Their durability against scratches, stains, and daily wear further enhances their practicality, catering to both residential and commercial applications.

Liner Laminates Collection

Liner laminates are a type of decorative laminate, often used as a backer or lining on the inside of furniture, cabinets, or other surfaces. They are typically thinner than standard decorative laminates, making them cost-effective and ideal for applications where durability and aesthetics are desired without the need for a high-pressure, high-wear surface.

EDGEBANDS

PVC • ACRYLIC

Skydecor proudly offers matching edge bands for all its laminate collections, providing a seamless and refined finish that eliminates the traditional brown seam line. Designed to enhance both aesthetics and durability, these edge bands are available in two architectural thickness options—22×0.8mm and 22×2mm—catering to various applications and design preferences. Whether it's for countertops, tables, workstations, or desks, Skydecor's edge bands deliver a cohesive and professional look that complements residential and commercial interiors alike. With perfect coordination in colour, texture, and finish, our edge bands ensure a flawless extension of your chosen laminate, enhancing the overall visual harmony of your surfaces.

20

PVC EDGEBANDS

PVC edgebands are well-known for their adaptability, as they come in a variety of colors, textures, and thicknesses to complement or contrast with diverse surface treatments. They can withstand heat, impact, and chemicals, making them suitable for both household and commercial furniture applications.

PVC edgebands are simple to install with hot-melt adhesives or edgebanding machines, and they provide a cost-effective and long-lasting option for modern furniture manufacturing.

ACRYLIC EDGEBANDS

Acrylic edgebands are high-end edging solutions used in modern furniture to provide a high-gloss, glass-like appearance on panel edges. These edgebands, made of durable acrylic, provide a seamless, exquisite appearance and are commonly used in high-end kitchens, closets, and office furniture.

They are available in a wide range of brilliant hues, metallic finishes, and 3D effects, allowing for dramatic design statements. Acrylic edgebands are UV-resistant, scratch-resistant, and extremely durable, retaining their clarity and gloss over time.

HDMR-MDF BOARDS

Medium Density Fiberboard (MDF) is a top-tier solution for modern furniture, offering enhanced resistance to temperature changes and humidity compared to traditional solid wood and plywood. As a lighter yet more durable engineered wood alternative, MDF is perfect for creating elegant and long lasting furniture.

At Skydecor, we craft our MDF boards using state-of-the-art technology and premium hardwood, ensuring uniformity, strength, and long-term performance. With a homogeneous composition and consistent quality, Skydecor MDF stands out in the market, making it a smart and sustainable choice for manufacturers and designers seeking both style and substance.
