PERFECTLY MATCHED WITH YOUR SELECTED SHADES FROM THIS CATALOGUE.

SKYDECOR ACRYLIC LAMINATES FEATURES

DURABLE

Skydecor Acrylic Laminates exceptional features makes them strong and highly durable.

ANTI SCRATCH

Skydecor Acrylic Laminates are developed with top tier technology.

6H Coating makes it highly scratch resistant.

SUPERIOR GLOSS

Skydecor Acrylic Laminates are made of

100% Pure PPMA laminates, which gives the surfaces a super glossy finish & mirror like sheen that retains its color and brightness over the years.

LIGHT WEIGHT

The flawless design structure of Skydecor Acrylic Laminates are engineered to be extremely light weight and easy to apply.

COLORS & VARIETIES

Skydecor Acrylic Laminates retain their color and brightness for ages and are available in plenty of vibrant colors.

LOW MAINTENANCE

Skydecor Acrylic Laminates are easy to use with very low maintenance. Just a normal wipe with a clean & wet cotton cloth is necessary.

TERMITE PROOF

Skydecor Acrylic Laminates are specially treated to ensure that they remain termite and borer free for a lifetime.

WATER PROOF & STAIN RESIST.

Skydecor Acrylic Laminates are treated with a special coating on their surfaces to make them water proof.

ABOUT US

Skydecor began its journey in the year 2016 with a goal to reach beyond the sky limits. With over 50,000 sq. meters of Infrastructure area and state of the art machinery, we aim to expand and develop at every stage. Our manufacturing units are in Greater Noida and Hapur where we manufacture PVC Laminates, Acrylic Laminates and Decorative Laminates. Our Operational Headquarters is in Noida and Experience Center in Kirti Nagar.

Boasting a legacy of a decade, Skydecor Laminates offers to revitalize the space around you. Our collections offer limitless possibilities for an interior space to look stylish and refined. From solids to textures, from naturals to eternal, our laminates come in a wide variety of designs and patterns.

As a socially and environmentally responsible company, Skydecor also prioritizes sustainability in our design practices. We strive to incorporate eco-friendly materials, energy-efficient solutions, and sustainable practices wherever possible, contributing to a greener and more sustainable future.

Our team follows a collaborative approach, working closely to ensure smooth project management, timely execution, and impeccable finishing. We believe by developing a large dealer network in India, Skydecor has left its footprints around our country. Our team works with clients to understand their vision, preferences and requirements, ensuring that each project reflects their individuality and exceeds their expectations. We pay meticulous attention to detail, incorporating the latest design trends, materials, and technologies to create inspiring and functional spaces.

Researching and developing a wide range of laminate designs with the utmost quality and at affordable prices has become our key goal for customer satisfaction. Explore Skydecor's Laminates collection to design your interiors according to your specifics.

WAYS TO KEEP SKYDECOR ACRYLIC LAMINATE NEW FOREVER ?

Follow some steps mentioned as below to maintain Skydecor Acrylic Laminates.

- To clean the surface of Acrylic Laminates do not use thinner.
- Wipe the surface gently with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminates.
- Use mild house hold glass cleaner like COLIN to remove more stubborn stains.
- You can use normal water also for cleaning.
- Do not place hot cookware directly on the Acrylic Laminate.
- Always store Acrylic Laminates at temperature below 300 Celsius.

WAYS TO PREVENT SKYDECOR ACRYLIC LAMINATES FROM COLOR FADE OR YELLOWING

- Do not expose your Acrylic Laminates furniture to direct sunlight, it may cause discolouring, fading and yellowing of the laminates.
- Don't use inferior quality chemical dipped plywood as it can react with adhesive which may cause yellow patches after the installation.
- Don't use synthetic rubber adhesive for bonding as it may lead to brown/colored patches on Acrylic Laminates.
- Don't place hot cookware directly on the Acrylic Laminates.
- Prolong exposure of Acrylic Laminate above 30-degree temperature should be avoided.

HOW TO APPLY SKYDECOR ACRYLIC LAMINATES ON INTERIORS & FURNITURES

- Use balancing sheet on backside.
- Always clean the dust particles properly from the substrate (plywood MDF, Particle Board) surface by cloth or soft brush.
- Always use good quality branded adhesive to stick Acrylic Laminate on substrate. Please don't add water in adhesive before using it.
- Spread the adhesive uniformly by brush, roller or adhesive spreader on Acrylic Laminate and base substrate (Plywood, MDF, Particle Board).
- It is necessary to remove the air between Acrylic Laminate and substrate. Please leave minimum 2mm of groove between two pieces of Acrylic Laminate.
- At the time of pressing Acrylic Laminate on base substrate (Plywood, MDF, Particle Board) always use soft pinch roller or normal pressing technique to protect surface from any damage.
- The pressing should be done from the middle of the panel and move towards to the sideline and corners of the panel.
- For better bonding of Acrylic Laminate on substrate, press it for minimum 12 to 15 hours.
- Peel off the protective film within 15 days of installation.

YOU CAN AVOID PROBLEMS LIKE AIR BUBBLE & DELAMINATION ACRYLIC LAMINATE.

Avoid the lamination process of Acrylic Laminate under high humidity environment.

Don't use uneven surface substrate (Plywood, MDF, Particle Board) that may lead to air vacuum and air bubble which may appear after the installation.

Insufficient or lack of pressing during the bonding period of Acrylic Laminate.

Prevent the base substrate (Plywood, MDF, Particle Board) to absorb moisture. Because after few days of installation, it gradually loses moisture and this resulting in air bubble formation between Acrylic Laminate and substrate.

Don't use the water base synthetic resin adhesive any other the PEVA (Polyethylene Vinyl Acetate Co-polymer)

Take extra care during use of big size acrylic laminate for paneling because due to the bigger surface area, improper lamination may lead to air bubble formation after installation.

DISCLAIMER

- The Products are tested to be reasonably free of defects, and when used and fabricated properly they will comply with the applicable manufacturing specifications within realistic deviations. We recommend customers to inspect products properly before installing. Product's warranty in no way covers defects and non-compliance from or otherwise attributable to any other causes, including, without limitation the following :
- Improper handling / transportation / storage of Skydecor Acrylic Laminates
- Improper installation of Skydecor Acrylic Laminates
- Improper or unintended usage of Skydecor Acrylic Laminates
- Lack of or improper maintenance of Skydecor Acrylic Laminates
- Exposure to high temperatures
- Unauthorized alteration to the products
- Outdoor applications
- Do not use plywood with high moisture content
- Do not use ply with uneven surface
- Avoid using inferior quality adhesive
- Apply sufficient pressure
- Avoid pasting of sheets on the printed/branding area of the Plywood
- There will be no guarantee or exchange under any circumstances
- Color variations in products from different batches are possible
- We recommend using products from same batch to avoid color variations
- This brochure is for presentation purposes only. Actual colors may differ.
